

Minutes of 24th meeting of the One Health Consortium

Venue: Virtual mode, Area wise meeting

Date and time: 16th March 2022, 2.30pm onwards

Dr Hegde and Dr Rawat welcomed the collaborators of Veterinary, Medical and NER groups and as decided earlier, a half an hour meeting with each group was organized to discuss issues pertaining to implementation of project. A brief of the same are as follows:

1. Veterinary Group:

- a. MoA: It was noted that some of collaborators have not submitted MoA so far, and were requested to do needful.
- b. A list of diagnostic kits of identified diseases have been finalized in consultation with experts/ stakeholders for implementation and quotations of these kits have also been obtained. After deliberations, it was decided that if any collaborator has less quote available for any diagnostic kit, same should be shared with coordinating unit and other centers.
- c. Diagnosis of Brucella should be carried on non-vaccinated animals only, and preferably animals in their third or fourth lactation.
- d. Scrub typhus: It was decided that wherever incidence of human disease is reported, rat/ mice will be trapped to check disease. A minimum 10 samples may be collected.
- e. Cryptosporidiosis: Initially only ELISA test may be conducted and the samples may be stored. RT-PCR may be done in one or two centres to determine the species. This information can be used for further work in the second phase.

2. Medical Group:

- a. After deliberations, it was decided to have a physical interaction meeting of group to sort out issues related to sample collection etc. either at Guwahati or at Jodhpur based on common consensus.
- b. It was reported that SOPs of various identified clinical diseases have been compiled and ready for circulation except Nipah and TB. Dr Barman was requested to finalize SOP for NIPAH, and AIIMS Jodhpur, in consultation with Dr. Mawlong, shall prepare the SOP for TB.
- c. Collaborators who have not submitted MoA were requested to submit it as soon as possible.

3. NER Group:

- a. Dr Barman briefed about deliberations of NER group meeting held recently at Guwahati and future course of action/plan of sample collection simultaneously by medical and veterinary groups. Both groups are planning to collect samples jointly for which a plan has been chalked out.
- b. Efforts are underway to compile data of samples collected by various centers for progress report.
- c. It was suggested to identify and approach few more medical colleges.

List of participants of various groups is in Annexure.

Meeting ended with vote of thanks.
