

## Minutes of 4<sup>th</sup> meeting of the One Health Consortium

Topic: Sampling Size

Venue: Videoconferencing

Date and time: 10<sup>th</sup> December 2021; 10.30 am- 11.30 am

Attendees: Drs. Subeer Majumdar, AK Rawat, JPS Gill DhinakarRaj, Nagendra Hegde, KP Suresh, Azhahianambi

Minutes:

1. Dr. Suresh updated that his group has been working on meta-analysis for some diseases based on literature submitted by the investigators as well as his group. He requested that further literature may please be submitted as soon as possible.
2. It was decided that sampling would be decided state-wise, factoring in animal population in that state and risk factor analysis for that state. A risk factor matrix was proposed to be formulated in the form of risk factors versus ranking.
3. It was discussed to invite Dr. Navneet Dhand as an advisor for advise on sampling.
4. It was decided that all centres should start collecting samples immediately so that progress could be shown for the first 6-month report by the end of February.
5. It was decided that Drs. Nambi and DhinakarRaj would provide the information on the most appropriate kit for each disease, along with information on sensitivity and specificity for each kit to Dr. Suresh.
