29. Representative from NIVEDI
30. Representative from TANUVAS-TRPVB
31. Dr.Sabitri Maibam, Manipur
32. Dr.Samir Das, ICAR, Umiam
33. Dr.Sandeep Chaudhari, MAFSU
34. Dr.Shirish Upadhye, WRTC
35. Dr.Suresh KP, NIVEDI
36. Dr.Swaraj Rajkhowa, NRC-Pig
37. Dr.Tapan Kumar Dutta, CAU, Aizawl
38. Dr.Vikram Saini, AIIMS, NewDelhi
39. Dr.Zeruiah Bhutia, Tadong
40. Dr.Zohmingthangi, Mizoram

Spa

Minutes:

1. Dr. Rawat welcomed the participants to the meeting and briefed that the meeting was about the submission of the annual progress reports and the presentations for the upcoming annual review meeting. He showed his concern on non-receipt of funds for 2nd year mainly due to new financial regulation adopted by Govt. of India as well as due to delay on part of various institutes involved in this project. He suggested that these issues should also be brought in the knowledge of expert committee while presenting the progress.
2. Dr. Hegde informed all the collaborators that a common format for report as well as slides will be shared with all the centres as early as possible and that centres should send the reports by 28th of February. It was also discussed that separate slide formats would be shared for both medical and veterinary units.
3. It was informed that PCMU would also make a single presentation for the whole project.
4. Dr. Barman was requested to send a compiled information for the second-year sampling and testing data from all the NER centres.
5. Dr. Suresh was requested to generate a sampling plan for the second-year for a minimum sample number with statistical significance due to high costs of some of the kits such as CCHF. It was emphasized that the data should be shared in the recommended format only, for making an effective second-year sampling plan.
6. Dr. Suresh has also updated that the website security audit is in process.
7. It was discussed that a pre-PMC meeting will be held on 12th of March at 10.00 am (GADVASU requested to hold this meeting in the afternoon) and that everyone must be ready with their presentations.
8. All the centres requested that PCMU issue an official letter to all the centres regarding annual review meeting for further proceedings by their respective institutes.
9. Dr. Shirish, WRTC, mentioned that an official permission letter will be forwarded to respective centres through which each of the centres can begin sampling in wildlife in their localities.
10. GADVASU informed that due to limitations of funds and various other issues, they will not be able to conduct the workshop during this financial year; however, they proposed that an online workshop could be held if needed.
11. Drs. Rawat and Hegde informed all the investigators that the second-year funds will be released very soon and that the work plan must be ready.
12. Dr. Rawat proposed that strong efforts will be made to extend the project due to delay in the release funds, manpower issues, and consequent delay in sampling and testing.
13. The meeting ended with vote of thanks to all.
